The Lifeguarding Experts

Know how
to manage the
risks and operate
safe facilities.

the Lifesaving Society
provides safety solutions.
november 24 to 26
edmonton, alberta, canada

If its foreseeable, it's preventable! As the Lifeguarding experts in Canada for the past 45 years, the Lifesaving Society provides expertise and services beyond lifeguard training programs. Coming this November, the Lifesaving Society will be piloting and launching new safety management programs for professionals in aquatic programming, facility management, swimming pool operations and recreation. **These programs won't leave you puzzled.** Registration & Location details are available online.
